

Configure the Report Disease Group – Disease Matrix

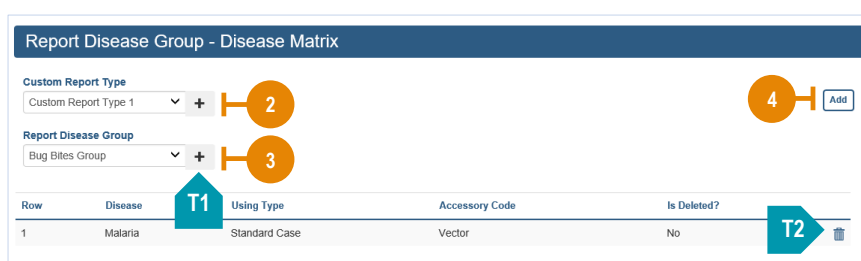

Pg. 1 of 1

An EIDSS user with the appropriate permissions can specify lists of disease groups for custom reports. This quick guide presents the steps to configure the Report Disease Group – Disease matrix.

1. From the **EIDSS Dashboard**, choose **REPORT DIAGNOSIS GROUP - DIAGNOSIS MATRIX** from the **CONFIGURATIONS** drop-down menu. The **Report Disease Group – Disease Matrix** screen appears.

2. Choose a **Custom Report Type** from the drop-down menu.
3. Choose a **Report Disease Group** from the drop-down menu. Any existing **Diseases** appear in the grid.

Tip 1: To add a new option, click the appropriate **Add** icon, complete the window that appears and click **Submit**.

Tip 2: To delete a row, click the corresponding **Delete** icon and click **Yes** on the dialog box that appears.

4. Click **Add**. The **Report Disease Group – Disease Matrix** window appears.
5. Choose a **Disease** from the drop-down menu.

Tip 3: To delete entered information and close the window, click **Cancel**.

6. Click **Submit**. A pop-up appears confirming successful configuration of the matrix. **Note:** The **Using Type**, **Accessory Code**, and **Is Deleted** fields auto-populate in the grid.
