

# Configure the Disease–Age Group Matrix

Pg. 1 of 1

An EIDSS user with the appropriate permissions can manage lists of age groups as specified by disease in the database. This quick guide presents the steps to configure the Disease–Age Group matrix.

- From the **EIDSS Dashboard**, choose **DISEASE – AGE GROUP MATRIX** from the **CONFIGURATIONS** drop-down menu. The **Disease–Age Group Matrix** screen appears.

- Choose a **Disease** from the drop-down menu. Any existing **Age Groups** appear in the grid.

**Tip 1:** To add a new option, click the **Add** icon, complete the window that appears, and click **Submit**.

**Tip 2:** To delete a row, click the corresponding **Delete** icon and click **Yes** on the dialog box that appears.

The screenshot shows the 'Disease-Age Group Matrix' form. The 'Disease' dropdown is set to 'Acute viral hepatitis A'. The 'Age Group' grid shows rows for different age ranges: -1, 1 - 4, 15 - 19, 20 - 29, 30 - 59, 5 - 14, and 60+. A red circle with the number 2 points to the 'Add' icon next to the 'Age Group' dropdown. A red circle with the number 3 points to the 'Add' button at the top right of the grid.

- Click **Add**. The **Disease–Age Group Matrix** window appears.

- Choose an **Age Group** from the drop-down menu.

**Tip 3:** To delete entered information and close the window, click **Cancel**.

The screenshot shows the 'Disease-Age Group Matrix' form. The 'Age Group' dropdown is set to '5 - 14'. The 'Submit' button is highlighted with a red circle and the number 5. A red circle with the number 4 points to the 'Add' icon next to the 'Age Group' dropdown. A red circle with the number 6 points to the 'Cancel' button at the bottom right of the form.

- Click **Submit**. A pop-up appears confirming successful configuration of the matrix.
