

# Delete a Query

Pg. 1 of 1

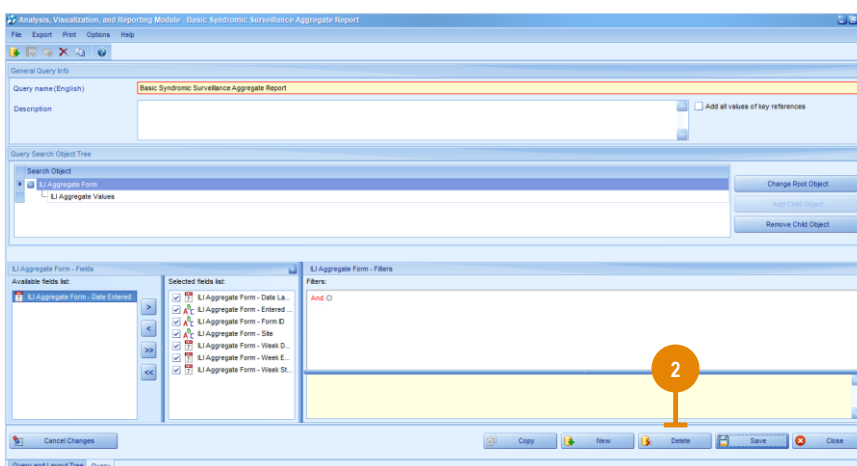

An EIDSS user with the appropriate permissions can remove queries from the Analysis, Visualization, and Reporting (AVR) application. This quick guide presents the steps to delete a query.

1. From the AVR **Query and Layout Tree**, double-click the query you wish to delete. The query appears. **Note:** Published queries (those listed in bold) must be unpublished before they can be deleted.

**Tip:** A query can also be deleted by highlighting the desired query in the **Query and Layout Tree** and clicking the **Delete** icon in the toolbar.

2. Click **Delete**. A confirmation dialog box appears.

3. Click **Yes**. The query is deleted and no longer appears in the **Query and Layout Tree**.
