Configure the Vector Type – Field Test Matrix
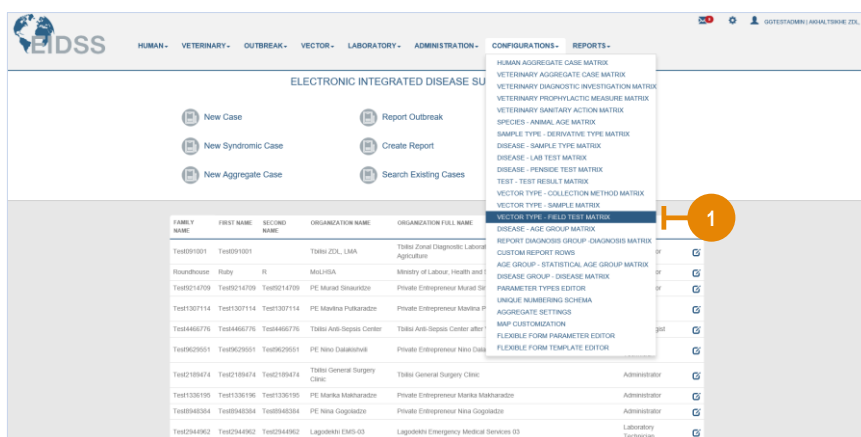

An EIDSS user with the appropriate permissions can manage lists of field tests specified by vector type in the database. This quick guide presents the steps to configure the Vector Type – Field Test matrix.
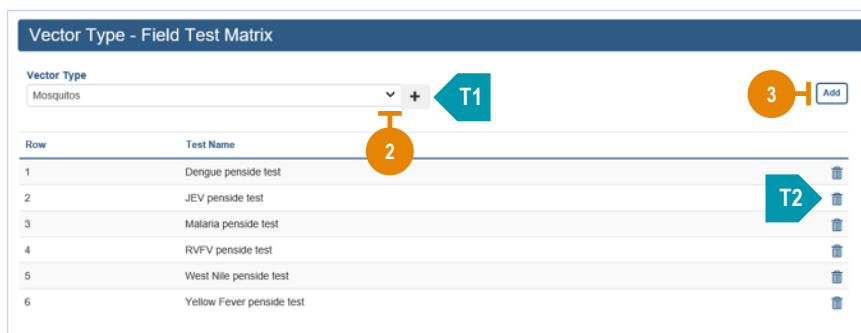

1. From the **EIDSS Dashboard,** choose **VECTOR TYPE – FIELD TEST MATRIX** from the **CONFIGURATIONS** drop-down menu. The **Vector Type – Field Test Matrix** screen appears.

2. Choose a **Vector Type** from the drop-down menu. Any existing field tests appear in the grid.

> **Tip 1:** To add a new option, click the **Add** icon, complete the window that appears and click **Submit.**

> **Tip 2:** To delete a row, click the corresponding **Delete** icon and click **Yes** on the dialog box that appears.

3. Click **Add.** The **Vector Type – Field Test Matrix** window appears.

4. Choose a **Test Name** from the drop-down menu.

> **Tip 3:** To delete entered information and close the window, click **Cancel.**

5. Click **Submit.** A pop-up appears confirming successful configuration of the matrix.
